

Global Startup Funding Rounds 2019–2026: findings, method and data card

Fliar Research · released October 2026 · licence CC BY-NC 4.0

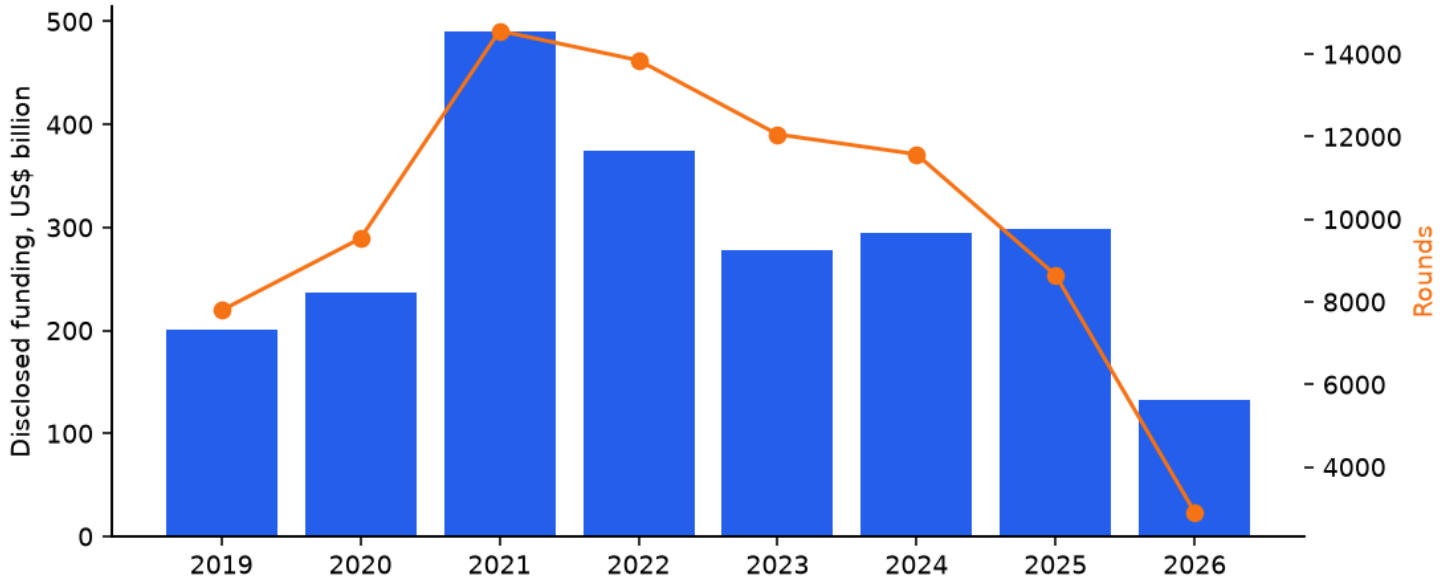

How this dataset was acquired. Every row comes from the [Radar API](#), Fliar's company-data API and MCP server. Radar reads business news continuously and extracts each funding announcement into structured fields: company, stage, amount, currency, investors and date. It then links the company to its record in a database of five million companies. This release covers startups worldwide, January 2019 to June 2026. It runs that output through a reproducible cleaning pipeline: repeated reports of one deal are merged, recaps of past rounds are dropped, and every amount is checked against the sentence it was read from. Each row names the article it was read from (`news_source` , `news_url`) and quotes the sentence (`news_excerpt`). The full, continuously updated data is available through `POST /v1/companies/funding` ([reference](#)) or the `get_company_funding` MCP tool.

This file is a 25% sample: 20,227 of 80,911 funding rounds. It keeps every record for a fixed subset of companies. The subset is chosen by a hash, so it stays the same from one release to the next. The findings and tables below were computed on the **full** data. For the rest, the withheld fields and monthly updates, [get a Radar API key \(docs\)](#). Each row's `fliar_profile_url` opens the company's full profile on Fliar.

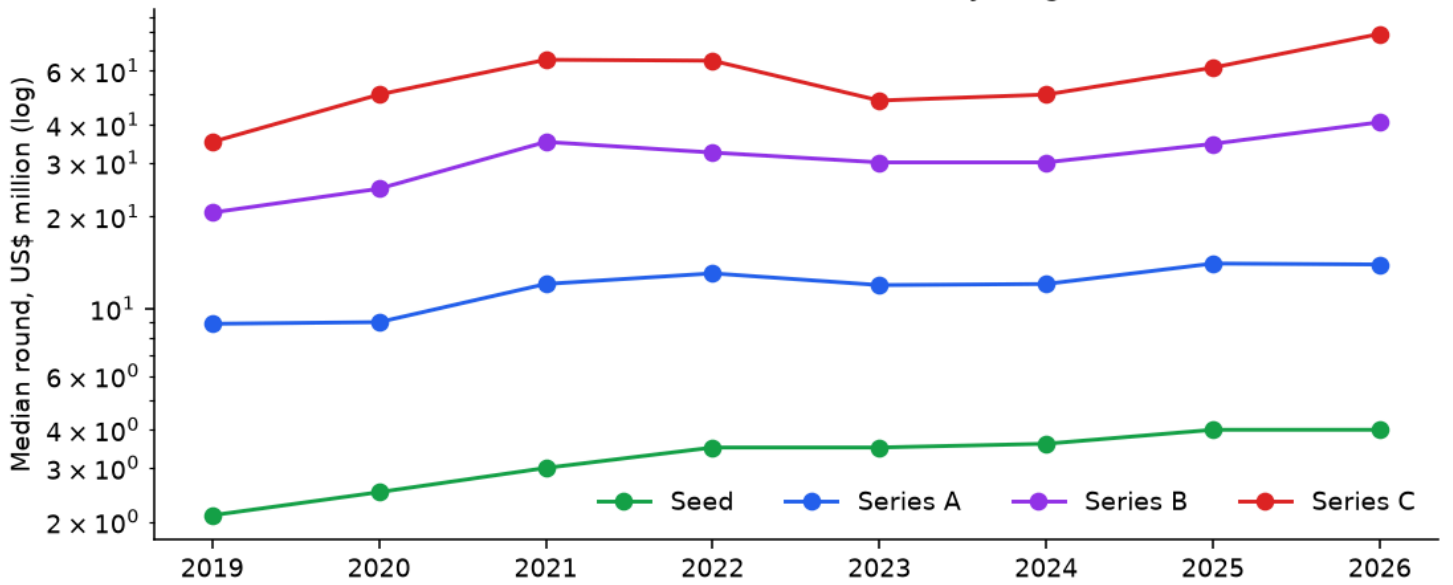

Key findings

1. **47,428 companies raised 80,911 rounds between 2019 and mid-2026.** 66,936 rounds disclosed an amount, totalling \$2.3T.
2. **2021 was the busiest year**, with 14,562 rounds. Disclosed funding in 2025 was \$298.4B, 1.5× the 2019 level (\$200.2B).
3. **Mega-rounds dominate the dollars.** Rounds of US\$100M or more are 10% of rounds with a disclosed amount, but 61% of disclosed dollars.
4. **Early rounds got bigger.** The median Seed round went from \$2.1M in 2019 to \$4.0M in 2025; the median Series A from \$8.9M to \$14.0M.
5. **Funding is concentrated.** The top three countries (United States, India, United Kingdom) hold 67% of disclosed dollars.
6. **The fastest-rising sectors** (share of rounds, 2019–2020 vs 2024–2025): Energy Tech (2.3% → 4.1%), Business Services (2.7% → 4.3%), Energy (1.4% → 2.7%).

AI-native	387	142	\$20.1B	\$20.4M	63 → 50	Nuro, AlphaSense, Pony.ai
Gaming	364	259	\$6.2B	\$6.2M	55 → 31	Discord, MPL, Spirit AI
Investment Industry	361	282	\$14.9B	\$12.0M	64 → 56	Africa Finance Corporation, Scalable Capital, Binghatti
Industrial Goods and Manufacturing	350	261	\$5.7B	\$5.4M	76 → 45	Infinitum, Harry's, Sidersa
Auto	331	194	\$14.7B	\$12.6M	47 → 31	Verkor, Lendbuzz, Vroom
Travel and Hospitality Tech	280	184	\$5.0B	\$5.0M	45 → 32	Hostaway, Mews, IBS Software
Travel and Hospitality	250	171	\$8.8B	\$14.5M	38 → 20	GoAir, Akasa Air, Weststar Aviation
Mobile	245	165	\$4.2B	\$5.2M	36 → 36	Scopely, Dream Games, Tilting Point
Education	223	168	\$3.5B	\$4.3M	36 → 27	Aakash Educational Services, Saga, K12 Techno Services
Mining	220	146	\$6.0B	\$6.0M	37 → 31	Ironbark Zinc, Posco Argentina, Cornish Lithium

Sector	Rounds	Companies	Disclosed \$	Median round	2024 → 2025 rounds	Most funded companies
Transportation and Logistics	213	160	\$5.7B	\$10.0M	33 → 22	Emergent Cold LatAm, CLI, SmartStop Self Storage
Chemicals and Materials	197	132	\$4.5B	\$6.0M	40 → 25	H2 Green Steel, Amyris, Tees Valley Lithium
Chemicals and Materials Tech	182	112	\$3.3B	\$5.0M	42 → 21	Boston Metal, Solugen, PASQAL
Aerospace, Maritime and Defense	131	86	\$5.5B	\$17.9M	27 → 32	Mach Industries, SkyRyse, Castelion

Method

- Extraction.** Radar's pipeline reads each funding article and extracts structured fields from it, including the source sentence.
- Back-fill days removed.** Two days on which archived articles were loaded with the load date as their publication date (2024-04-22 and 2025-02-13) are excluded, because those rounds carry no reliable date.
- Scope.** Venture-style instruments only (pre-seed to Series H, growth/PE, bridge, convertible notes, venture debt, grants, strategic). IPOs, QIPs, private placements, rights issues, bank loans, bonds and acquisitions are dropped. Companies founded in 2000 or later; rounds after a company's IPO and group subsidiaries of large conglomerates are excluded.
- Deduplication.** Reports about the same company and stage within 45 days are one round. A round repeating an earlier amount within 180 days is dropped, as are lettered stages below one already announced (recaps). One round filed under two domains of the same company is merged.
- Amount check.** Each amount is compared with the money figures parsed from its source sentence (tolerance 0.6–1.7×). `verified` matched; `unchecked` had no parseable figure; `failed_check` is blank because it did not match, exceeded a stage ceiling, or was a \$500M+ figure reported by one article only; `not_disclosed` had no amount.
- Currency.** US dollars, converted at the time of extraction and rounded to three significant figures.
- News columns.** The excerpt is the earliest reporting sentence that does not name a data provider. Source and URL come from that article when it can be retrieved.
- Sample.** Each company key is ranked by `sha1(key)` . Keys are taken in rank order until the file holds max(25%, 5,000) rows (capped at 100,000).
- Profile links.** Links are built from Fliar's company index and checked against it. A row whose company has no public profile has an empty link.

Columns

Column	Description
<code>round_id</code>	stable 12-character ID of the round
<code>announced_date</code>	date of the earliest report (YYYY-MM-DD)
<code>year</code>	announcement year
<code>company_name</code>	company name
<code>company_domain</code>	company website domain (the join key for the API)
<code>country</code>	company country
<code>city</code>	company city (normalised)
<code>sector</code>	Fliar sector label
<code>founded_year</code>	year founded

Column	Description
stage	normalised stage (Pre-seed ... Series H, Growth / PE, Debt, Undisclosed ...)
amount_usd	round amount in US\$ (blank when not disclosed or it failed the check)
amount_status	verified / unchecked / failed_check / not_disclosed
lead_investor	lead investor (organisations only), or the first named one
investor_count	number of distinct investors named (the full list is in the API)
news_mentions	articles that reported the round
news_source	publisher of the article the round was read from (website domain)
news_url	link to that article
news_excerpt	the sentence the round was extracted from (up to 300 characters)
fliar_profile_url	full company profile on Fliar (financials, funding, team, news)

Available only through the [Radar API](#): full investor list (names and websites of every participant); post-money valuation where reported; use of funds; every article that reported the round; the rest of the companies; rounds announced after June 2026 and the monthly refresh; company profile, financials, team and contacts.

Limitations

- Derived from news: rounds that were never reported are missing, and coverage is stronger for larger and English-reported deals.
- Amounts are as reported; fixed-rate conversion to US dollars makes local-currency rounds drift slightly over time.
- Stage labels mean different things in different markets.
- 2026 covers January to June only.
- Sector labels come from a company classifier, so some companies are mislabelled.
- `news_source` and `news_url` are blank when the article could not be retrieved at release time (about 40% of rows).
