

India Quarterly Results 2019-2026 (NSE/BSE): findings, method and data card

Fliar Research · released October 2026 · licence CC BY-NC 4.0

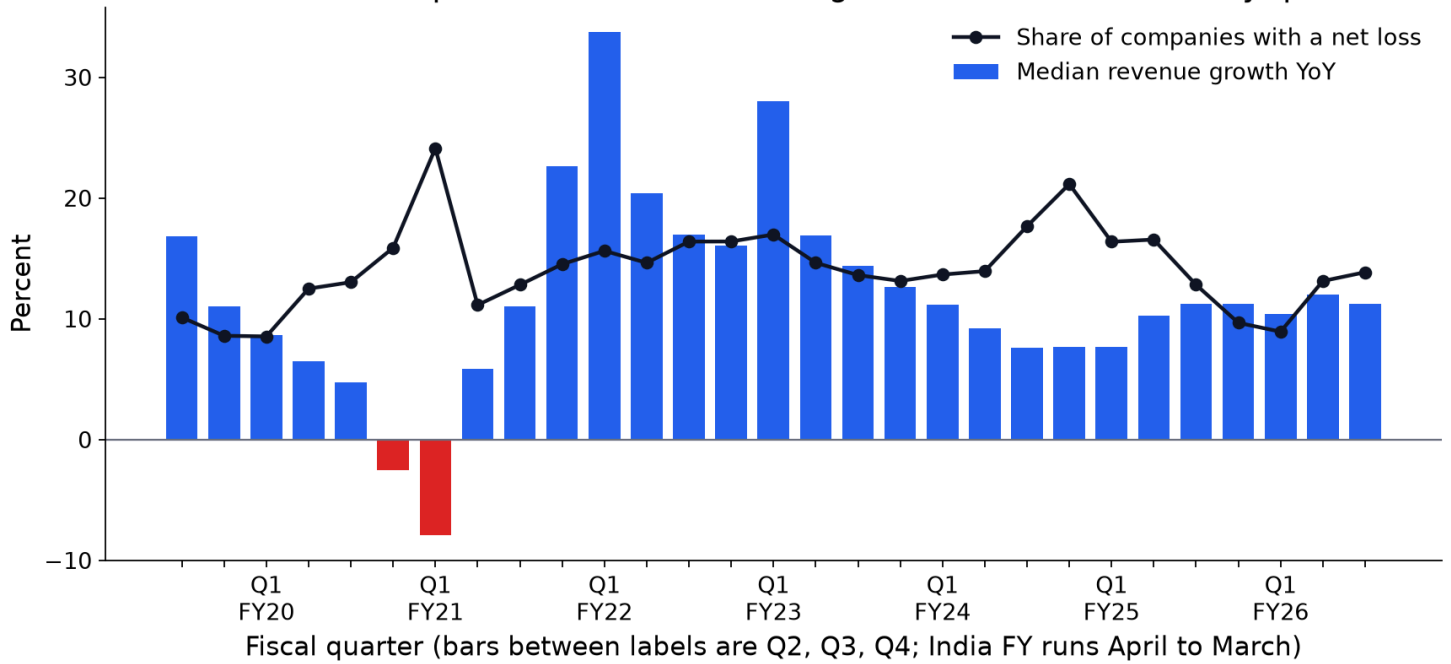

How this dataset was acquired. Every row comes from the [Radar API](#), Fliar's company-data API and MCP server. Radar collects the quarterly financial results that Indian listed companies file with the stock exchanges (NSE and BSE), reads the results tables and maps each line to a common set of metrics. It also reads business news continuously and extracts the results that companies announce (revenue, net profit, EBITDA and growth figures stated in the report), checking each figure against the sentence it came from. This release merges the two into one row per company and quarter, from the December 2018 quarter to the March 2026 quarter, with exchange-filed figures preferred, unit errors (lakh / crore / rupee slips) removed and year-on-year growth computed against the same quarter a year earlier. The full quarterly income statement for any company, plus annual results, balance sheet and cash flow, is available through `POST /v1/companies/financials` ([reference](#)) or the `get_financials` MCP tool.

This file is a 25% sample: 8,039 of 32,146 company-quarters. It keeps every record for a fixed subset of companies. The subset is chosen by a hash, so it stays the same from one release to the next. The findings and tables below were computed on the **full** data. For the rest, the withheld fields and monthly updates, [get a Radar API key \(docs\)](#). Each row's `fliar_profile_url` opens the company's full profile on Fliar.

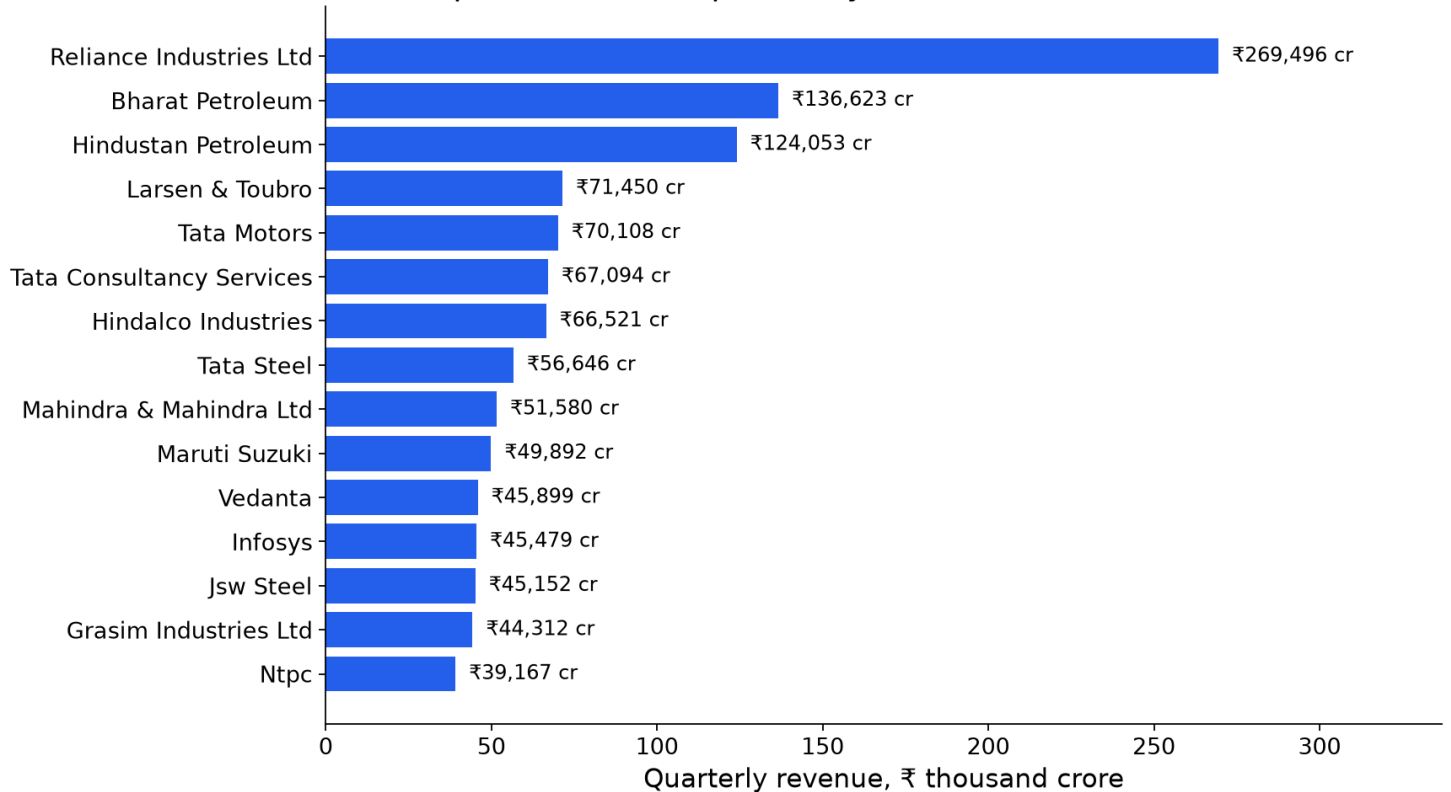

Key findings

1. **32,146 quarterly results for 4,474 Indian listed companies, Q3 FY19 (Dec 2018) to Q4 FY26 (Mar 2026).** 11,518 come from stock-exchange result filings and 20,628 from results reported in business news.
2. **Latest full quarter, Q3 FY26 (Dec 2025):** 1,349 companies. Reliance Industries Ltd had the highest revenue (₹269,496 cr), followed by Bharat Petroleum (₹136,623 cr) and Hindustan Petroleum (₹124,053 cr).
3. **The median company grew revenue 11.3% year on year in Q3 FY26 (Dec 2025);** 78% of the 627 companies with a growth figure grew.
4. **The pandemic quarter shows clearly:** median revenue growth was -7.9% in Q1 FY21 (April–June 2020), and the strongest quarter since 2021 was Q1 FY22 (Jun 2021) at +33.7% (the rebound against a depressed base).
5. **Loss-makers:** 14% of companies reporting a net profit figure in Q3 FY26 (Dec 2025) posted a loss, against 24% in Q1 FY21.
6. **Margins by sector, FY2025** (sectors with 100+ results): the highest median net margin was in Healthcare (9.6%), the lowest in Media & Entertainment (1.8%).

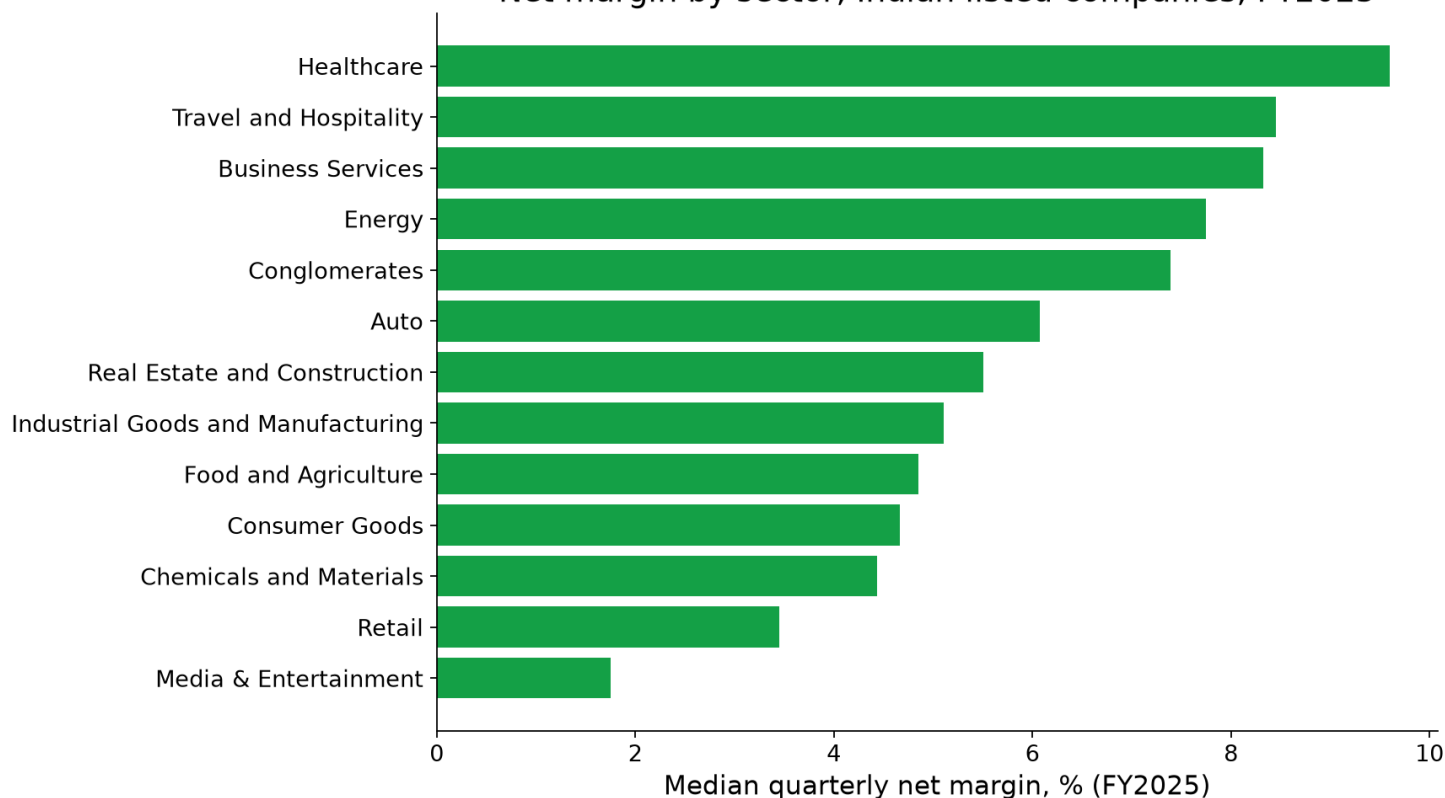

Indian listed companies: median revenue growth and loss-makers by quarter

Top 15 Indian companies by revenue, Q3 FY26 (Dec 2025)

Net margin by sector, Indian listed companies, FY2025

Top 50 Indian companies by quarterly revenue, Q3 FY26 (Dec 2025)

Revenue from operations in ₹ crore (1 crore = 10 million rupees). Banks, NBFCs and insurers appear only when their revenue was filed on the exchange; see the profit table for them. Consolidated figures where the company files both.

Quarter-by-quarter aggregates, all companies

The number of results per quarter follows coverage (more filings were collected from FY2022 on), so compare medians and shares, not totals, across quarters.

Quarter	Results	With revenue	Median revenue	Median revenue YoY	Share growing	Share loss-making	Median net margin	Total net profit (reported)
Q3 FY19 (Dec 2018)	360	246	₹1,101 cr	+16.8%	90.9%	10.1%	8.3%	₹122,404 cr

30	Piramal Group	Conglomerates	Q2 FY23 (Sep 2022)	₹-1,536 cr				news report

Method

- Exchange filings.** Quarterly result statements filed with NSE and BSE (three-month periods ending March, June, September or December). When a company files both standalone and consolidated results for a quarter, the consolidated figures are used. Revenue is revenue from operations; net profit is profit after tax; EBITDA is profit before tax plus finance cost plus depreciation and amortisation (so it includes other income and exceptional items).
- Business news.** Results sentences extracted from business news about Indian companies, in rupees only. Forecasts, guidance and analyst estimates are dropped. A figure is kept only when the sentence carries it (*verified*) or carries no comparable figure; a figure that contradicts the sentence is dropped. The quarter is read from the period stated (for example "Q3 FY26"

or "quarter ended December 2025"), else from the report date; reports more than about six months after the quarter ended are dropped.

3. **Listed companies only.** News results are kept for websites that belong to a listed company (a listed registration number, an NSE ticker or a listing record) and for banks. Bare group names ("Tata", "Reliance") that do not identify one company are dropped.
4. **Merging.** Filings and news are joined on company website and quarter. A filing figure that disagrees with a verified news figure by more than 2x is replaced by whichever is closer to the company's other quarters. The same result filed under two websites (for example a group and its namesake) is kept once.
5. **Unit errors.** Indian results are filed in rupees, thousands, lakhs, millions or crores and the unit label is sometimes wrong. A filed figure that is an exact power of ten away from the news figure or the company's other quarters is rescaled; a rupee-labelled figure under ₹10 lakh with no reference is dropped; a quarter 5x or more away from the company's median (2.5x for filed figures and large companies) is blanked; a quarter above ₹10,000 crore must be matched by another quarter of the company; a quarter above ₹1,000 crore that is more than 20x a quarter of the company's latest annual revenue is blanked.
6. **Caps.** Revenue above ₹3 lakh crore and net profit beyond $\pm ₹40,000$ crore in one quarter (above any Indian company's quarter) are blanked, as are negative revenue and EBITDA outside $\pm 100\%$ of revenue.
7. **Lenders and insurers.** News-reported "revenue" for banks, NBFCs and insurers mixes interest income, total income, net interest income and premiums, so for them only the exchange-filed revenue is kept, and EBITDA is left blank.
8. **Growth.** `revenue_yoy_pct` is computed against the same quarter a year earlier when both quarters come from the same kind of source and basis and neither is far from the company's usual level; otherwise the growth rate stated in the results news is used (`yoy_basis = reported`) when the sentence states it. Growth beyond $\pm 1,000\%$ is blanked.
9. **Company fields.** Names come from the filings or the news; sector from Fliar's company database; US\$ at a fixed ₹1 = US\$0.012.
10. **Sample.** Each company key is ranked by `sha1(key)`. Keys are taken in rank order until the file holds `max(25%, 5,000)` rows (capped at 100,000).
11. **Profile links.** Links are built from Fliar's company index and checked against it. A row whose company has no public profile has an empty link.

Columns

Column	Description
<code>result_id</code>	stable 12-character ID of the result (company + quarter)
<code>company_name</code>	company name
<code>company_domain</code>	company website domain (the join key for the API); blank when the company is not linked to a website
<code>exchange_code</code>	NSE symbol, or BSE scrip code as <code>BSE:<code></code> , when known
<code>sector</code>	industry label
<code>fiscal_year</code>	Indian fiscal year (2026 = April 2025 to March 2026)
<code>quarter</code>	fiscal quarter: Q1 (Apr-Jun), Q2 (Jul-Sep), Q3 (Oct-Dec), Q4 (Jan-Mar)
<code>quarter_end</code>	last day of the quarter (YYYY-MM-DD)
<code>basis</code>	<code>consolidated</code> or <code>standalone</code> accounts, blank when the source does not say
<code>revenue_inr</code>	revenue from operations for the quarter, in Indian rupees (lenders and insurers: exchange-filed figure only)
<code>net_profit_inr</code>	net profit after tax for the quarter (negative = loss), in rupees
<code>ebitda_inr</code>	EBITDA for the quarter in rupees, when filed or reported (not given for lenders and insurers)
<code>revenue_yoy_pct</code>	revenue growth versus the same quarter a year earlier, %

Column	Description
net_profit_yoy_pct	net profit growth versus the same quarter a year earlier, % (blank when the year-ago quarter was a loss)
yoy_basis	computed from two quarters in this table, reported (stated in the results news), blank when unavailable
revenue_usd	revenue converted to US\$ at a fixed rate of ₹1 = US\$0.012
source	exchange filing, news report or both
report_date	date the result was filed or first reported (YYYY-MM-DD)
fliar_profile_url	full company profile on Fliar (financials, funding, team, news)

Available only through the [Radar API](#): the full quarterly income statement (other income, raw materials, employee cost, finance cost, depreciation, profit before tax, tax, EPS); standalone and consolidated figures side by side; nine-month, half-year and annual results; balance sheet and cash flow; the filing documents and every news report behind each result; results after March 2026 and the quarterly refresh; the rest of the companies; company profile, funding, team and contacts.

Limitations

- Coverage is uneven over time: exchange filings were collected mostly from FY2022 on, and news coverage favours larger and more-reported companies. Counts per quarter reflect collection, not the number of listed companies; compare medians and shares.
- One storage shard of the filings table was unavailable at release time, so some filed quarters are missing.
- The March 2026 quarter (Q4 FY26) is partial: many companies had not reported, or had not been collected, by the cut-off.
- News-derived figures can be standalone or consolidated without saying so (basis blank), and different reports of one company can use different definitions of revenue; filed figures are more consistent.
- Figures failing a check are blanked rather than corrected, so some rows have only net profit or only revenue.
- About a quarter of filed companies are not linked to a website, so company_domain and fliar_profile_url are empty for them.
- Companies whose fiscal year does not end in March are labelled with the Indian fiscal calendar by quarter-end month.
- Sector labels come from a company database and are broad.
